Troutbeck

Amenia

Urbanites looking to immerse themselves in nature without sacrificing a single creature comfort have been spending weekends at **Troutbeck** since its opening in 2017. Across a handful of buildings, including the 1919 Manor House and the late 18th-century Benton House and Cottage, are 37 airy rooms whose four-poster beds beckon with their crisp white linens. Those in Benton House, which opened in 2022, have grass cloth wallpaper and subtle plaid and striped patterns throughout. The bold saffron yellow or rich navy blue four-poster beds in each room were designed by Connecticut-based furniture maker Ian Ingersoll.

If you can pull yourself away from your room, sweat it out in the sauna or on the tennis courts, stretch out during yoga in the barn, or splash around in the pool.
